The Postville Project: Documenting a Community in Transition, a collaborative archival venture between the UNI Rod Library and the Luther College Archives, is featured during the month of May in the display case outside the Collection Management & Special Services Department office (LIB Rm 250). The project documents the Postville story of rapid demographic change and transition since the 1980s in a small rural community due to an influx of people of many cultures and nationalities, providing social, cultural and economic context for the Postville immigration raid that took place on May 12, 2008. Logins... Coming to a Computer Near You.

Soon all public computers in the library will require authentication with a username and password. This will be your Cat ID credentials. Authenticating will allow you to access your centralized storage drive (R drive) and aid in the recovery of lost documents. Patrons not affiliated with UNI can stop at the Circulation desk for a free visitor card and computer login name and password.
