Volume 4, Number 3

Nov 2011

Expanded Drink Selection

The Rod Library now has a pop machine available in the Newspaper Room on the first floor. It has Pepsi products, an energy drink, and water available. The cost for each selection ranges from \$1.25 to \$2.00. Apple cider and hot cocoa are now available at the MultiService Center desk. These selections, along with the coffees and teas, can be purchased for \$1.25

per cup or only \$1.00 if you have your own cup. Stop by soon for a refreshing drink!

Comments or Suggestions?

Would you like to make a suggestion or comment on our collections or services? Do you have a question and are not sure who to ask? Is there a resource the library doesn't own and you would like to recommend we purchase? Under "General Information" on the library home page click on "Contact Us." On the left hand side of the screen you have links to input forms. We are always happy to hear from you!

Harry Potter's World

Join Rod Library, in conjunction with the Cedar Falls Public Library and the Waterloo Public Library, in welcoming the coming of Harry Potter's World: Renaissance Science, Magic, and Medicine, an exhibit meant to teach the real history behind the magical world of J.K. Rowling's Harry Potter series.

Help us celebrate by taking part in the many Harry Potter themed events we have going on from October through December! For a complete listing of events go to www.library.uni.edu/collections/youth-collection/harry-potters-world

Student Technology Fee Survey

The Rod Library Student Technology Fee Committee requests your input to help us decide which categories of projects to recommend for funding with student technology fee money. Please take the survey at www.library.uni.edu/library/stfsurvey/ or feel free to fill one out as you pass the exhibition in the lobby near the circulation desk.
